web developer

Objective: Contribute my development and problem-solving skills to a passionate team, while building meaningful products and experiences.

❯ projects

Mentorship
Team Lead for 'Mentorship,' a Ruby on Rails platform that matches professionals seeking mentorship with those offering based on common interests. Used Oauth, LinkedIn API, Ruby/Rails, PostgreSQL, Foundation, JQuery.

There's a Board
A Ruby on Rails app for scheduling tutoring sessions and giving actionable, specific, and kind feedback to your session partner. Used Ruby/Rails, PostgreSQL, CSS, JQuery.

Music Review
A hub for users to upload albums and leave reviews. Used Ruby/Rails, PostgreSQL, Devise, Paperclip, Bootstrap.

❯ experience

Dev Bootcamp NYC   NYC
Fullstack Development Student   Jan 2016 to May 2016
· Trained from a complete beginner to a Fullstack Developer in 18-Week Accelerated Web Development Program.

Eyeview   NYC
Sourcer & Talent Acquisition Strategist   Sep 2014 to Mar 2016
· Worked in a team of 2, with Head of Talent, to recruit top candidates for 20+ jobs at one time.
· Sourced passive talent through LinkedIn, TalentBin, Dribbble, among other tools, to decrease time to hire & cost per hire.
· Personally messaged thousands of passive candidates about specific roles within Eyeview, resulting in a higher caliber talent pool.
· Worked creatively with Hiring Managers to kick off each new role & develop sourcing strategies.
· Managed transition to a new Applicant Tracking System, Greenhouse, and the candidate experience through candidate communication and all interview stages.
· Transitioned from coordinating & scheduling all interviews, to managing a Temporary Coordinator, teaching & mentoring on administrative and talent acquisition best practices.
· Launched & project-managed first ever 'Job Bingo' competition within Eyeview, in effort to increase internal referrals.
